This is in response to Requests for Additional Information received on 9 and 10 February 2012.

Those requests were asking questions about our May, June, and July 2011 monthly reports.

All three requests asked questions about how we treated investments with regard to the Cash-on-Hand in our reports. We have amended the reports based on this request.

The requests for the May and June reports also asked about substantial increases in disbursements from the originally-filed reports. This was on account of a clerical error on the original filings, resulting in some earmarked contributions not having their subsequent expenditures reported.

The request for the July report also asked about some itemized disbursements not having their purposes listed. This was due to a clerical error involved in switching from FEC Version v7.0 to FEC Version v8.0.

The amendments filed 15 March 2012 for our May, June, and July 2012 reports address the issues listed above.

The amendment filed 15 March 2012 for our April 2012 report was to correct totals which had been affected by previous amendments.
